Word Tracing Book Sample

Start tracing words and sentences

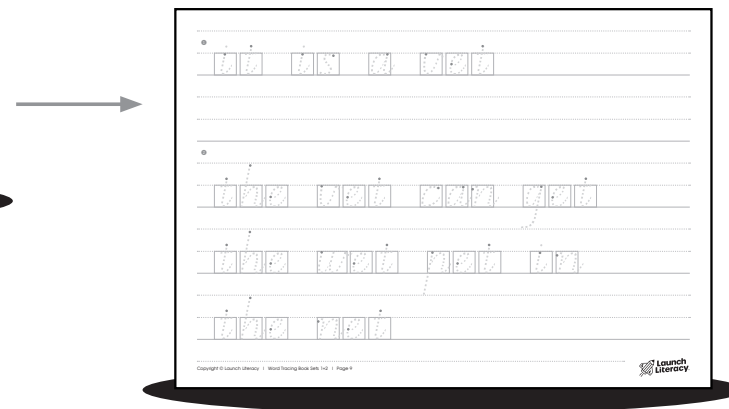

This sample shows how to integrate Launch Literacy Decodable Readers with the Activity Books to develop early spelling and writing skills in young learners.

The child will trace the initial letters to form the words and practise early spelling.

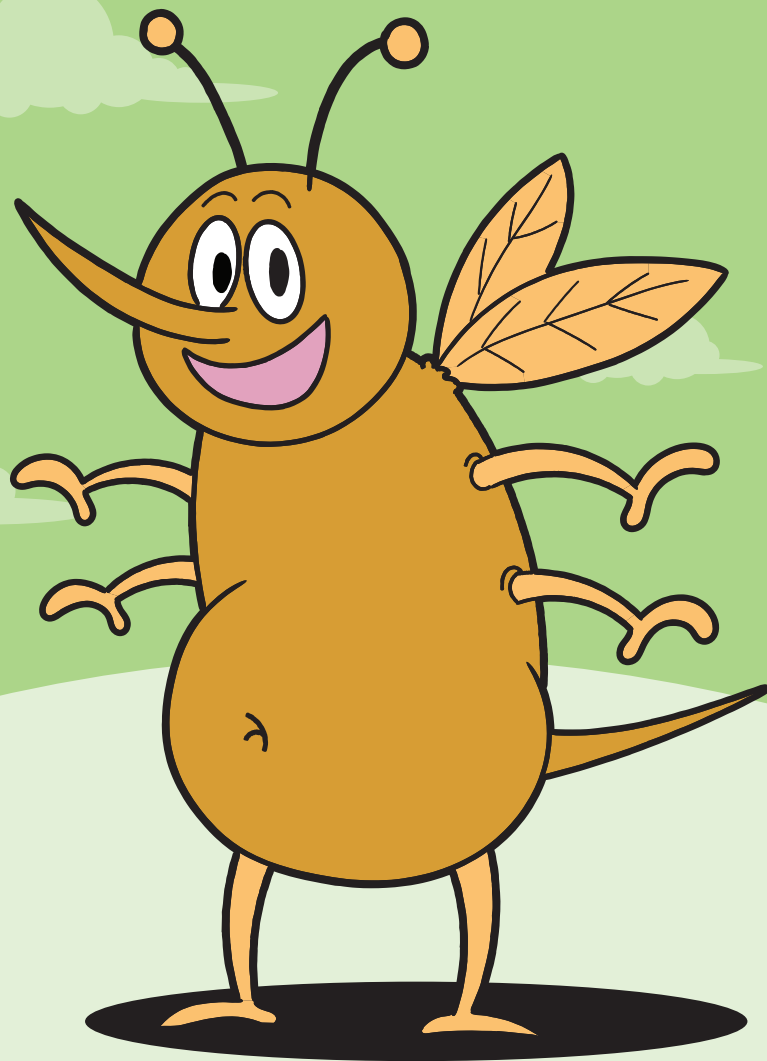

The children will trace the sentences after they have read them in the Rhyming Readers.

This sample is from the 'ug' group of My Alison Work Resources.

The bug and the pug can hug on the rug.

The jug is not on the rug.

The jug is by the slug that is snug on the plug.

This sample has introduced the 'ug' rhyming family

Launch Literacy early literacy program uses this same process to teach all 24 essential word rhyming families.

All 66 Decodable Readers are available as ebooks or in beautifully printed formats.

* A rhyme is the part of a syllable which consists of its vowel and any consonant sounds that come after it.

In addition to the Tracing Books, the Launch Literacy early literacy program includes Writing Books – where children practise writing the letters and words with clear starting points provided but without the tracing guidance.

The Program is available in pdf form or in commercially printed format.
